

## JOB ADVERT

### Background

Joint Efforts to Save the Environment (JESE), is an indigenous Non-Governmental Organisation (NGO) established in 1993 with a desire to increase household food security, through sustainable agricultural production and livelihood improvement amongst the rural communities as well as sustainable Natural Resources Management. Our work spans 2 decades, operating in Western Uganda, Albertine region, and in Northern Uganda.

JESE in partnership with Forests of the World are implementing a project titled, **Enhancing adaptation to climate change by supporting climate resilient income opportunities and access to sustainable green jobs in Western Uganda**. This project requires the recruitment of; **Training officer/Specialist, who** will be responsible to foresee and Guide in the implementation of Green skills focusing on agroforestry.

### **Job Position; Training officer/specialist**

The Agro-forestry Training Specialist will lead all field activities related to the coordination of Green skills training, and support the development of training curricula and manuals, and ensure their suitability for maximum absorption and adoption by the target groups. The training Specialist will lead the analysis of farming systems, and help design and implement effective capacity building of farmers, and youth in agroforestry skills.

### **Responsibilities:**

- Lead the development of training modules/manuals related to agroforestry/business training courses.
- Lead in the development of a Farmer Field School-based agroforestry and farm training tool, including liaising with IT systems expert to ensure user-friendliness of digital learning possibilities.
- Lead in the identification and screening of trainees that shall participate in the agroforestry training courses.
- Lead in the training, coaching, monitoring, and coordination in all project activities related to agroforestry training under the project

- Ensure the learning properly accompanies project activities throughout the project cycle.
- Proactively identify issues, report them to inform adjustments to plans and implementation schedules.
- Lead in the identification and assessment of Green colleges/TVETs that shall deliver the Agroforestry training Courses.
  - Certification of the agroforestry training courses DIT
  - Be responsible for the good management of the Eco-Training Bus.
  - Identify capacity and technical assistance needs of Participating Green Colleges and contribute to capacity strengthening of these organisations to deliver on their mandate.
- Assist with preparation of trends analysis reports and disseminate results from the training activities.

**Required skills:**

- Critical thinking and creative problem-solving skills with ability to make sound judgment.
- Strong relationship management skills and the ability to work effectively with local stakeholders.
  - Ability to contribute to written reports.
  - Proactive, results-oriented, and service-oriented.
  - Attention to details, accuracy and timeliness in executing assigned responsibilities.
  - Cultivates Constructive Relationships with peers and superiors
  - Promotes learning among peers and across the organization.
  - Experience using MS Windows and MS Office packages (Excel, Word, and PPT)

**Qualifications:**

**Education and Experience**

- Bachelor's Degree required. Degree in Agriculture, Horticulture, forestry-specializing in agroforestry
- Proven understanding of agro-forestry approaches and good agricultural practices.
- Experience in value chain projects or programs.

**Minimum of 3 years of work experience.**

**Send your application not later than July 1st, 2021.**
